30 YEARS OF SERVICE

YOUR “ONE STOP” CONTRACTOR

Design & Engineering

Fabrication & Machining

Optical Alignment

Mechanical

Piping

Scanning

Installation

Relocation

Concrete/Civil

Rigging

Electrical

Machinery Moving

Our professional team will ensure your equipment is safeguarded as their No. 1 priority.

For three decades, we've been providing our national customer base with the highest level of project management and industrial construction services.

FOCUS INDUSTRIES

Pulp & Paper
Corrugated & Packaging
Food Processing
Asphalt Roofing
Machinery Moving
Asset Recovery

FOCUS TRADES

Engineering & Design
Fabricating & Machining
Millwright Services
Process Piping
Concrete/Civil
Electrical
Scanning
Alignment

SAFETY • PROFESSIONALISM • EXPERIENCE

SAFETY

WE PUT SAFETY FIRST!

Every employee completes a rigorous two-day safety training workshop when hired and is re-certified annually

All supervisors are OSHA-30 trained

Excellent safety record

My Brother's Keeper Pledge

Constructability

TYPES OF WORK

Annual Shutdowns
Monthly Maintenance Shuts
Capital Jobs
Preventative Maintenance
Equipment/Mill Relocations
Installations
Rebuilds

6

PIC's team of paper specialists can take care of any needs you might have. From maintenance to capital projects, we have you covered.

SPECIALITES:

Mechanical
Pipefitting
Precision Alignment
Structural
Rigging
Electrical
Civil

EQUIPMENT EXPERTISE:

Pumps/Refiners/Fan
Washers/Clarifiers
Process Piping Systems
Sole Plates/Foundations
Motors/Turbines
Compressors
Bearings/Couplings/Shafts
Gears/Gear Boxes
Headboxes/Presses/Dryers
Calendars/Winders

Stairs

**Food safety is at the heart of all our
designs and installations.**

SPECIALIZING IN SANITARY DESIGN STANDARDS

Stainless Steel Alloys, Aluminum, or Plastic

Easily Cleaned, Maintained, and Inspected

3B or 4A Smooth Bead Blast Finishes

Unsurpassed Waterjet Cut Finishes

Ultra Sanitary Surfaces

EZ Wash-Down

SAFETY • PROFESSIONALISM • EXPERIENCE

ASPHALT ROOFING

Extensive Experience Designing, Fabricating, and Installing
Unwind Stands
Mat and Cooling Accumulators
Asphalt Storage, Heating, and Coating
Saturation Dip
Granule Storage, Blending, and Metering
Cutters, Bundlers, Palletizers, and Conveyors

MACHINERY MOVING

RELOCATING PLANTS AND FACTORIES

Expert Certified Riggers

Cribbing and Packing

Rails and Sole Plates

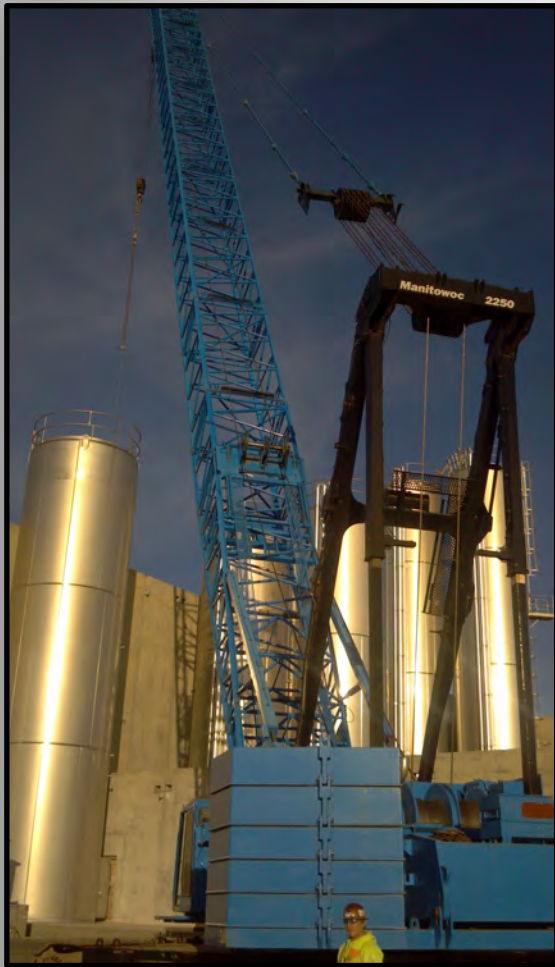

Local, National, and International Experience

Specialized Equipment for Working in Operating Environments

Matchmarking and Documenting

Platforms Stairs
Ladders
Conveyor Sections

MACHINING

Lathes
Grinders
Presses
Mills
Drills
Copper

MATERIALS

Stainless Steel
Aluminum
Carbon Steel
Cast Steel
Brass

PIC has a full service fabrication and machining capability focused on maximum flexibility and expedited overnight services. Our sales consultants work with each customer to design solutions specializing in reverse engineering OEM parts and designing innovative solutions.

SAFETY • PROFESSIONALISM • EXPERIENCE

MILLWRIGHT SERVICES

Our millwright teams are dedicated to installing your equipment with precision and in a timely fashion. Our team members have taken the skills from the past and joined them with today's technology to ensure a precision installation.

From layout to alignment, all of our crews are trained to ensure your equipment runs smoothly.

PROCESS PIPING

PIC has leveraged our ongoing deep experience in process piping to complete numerous successful projects in steam, air, water, and starch systems. Piping systems include:

Flanges, Bolting, & Gaskets
Welded Joints

Fittings
Pipe Supports

Pipe
Valves

From design to engineering, fabrication, and then installation, PIC can provide a complete project.

SAFETY • PROFESSIONALISM • EXPERIENCE

CIVIL CONSTRUCTION

EXCAVATION AND FOUNDATION WORK

WIDE RANGE OF CIVIL SERVICES

Underground Utilities
Road Construction
Large Scale Site Prep

SPECIALIZED ENGINEERING/DESIGN

Specific Concrete Mix Designs
Constructability Reviews in Operating Facility

CONCRETE SPECIALTIES

Foundations & Pits
Precision Sole Plates & Rails
Trenching
Conveying Systems
Steel Floor Plating
Dewatering
Forming

A good project always starts with a good foundation.
Let us make sure everything starts off right.

SAFETY • PROFESSIONALISM • EXPERIENCE

FIELD MACHINING

PIC utilizes our comprehensive knowledge and experience to create unique solutions to challenging field machining solutions. This allows us to design and implement machining setups that are rarely seen in the industry. We specialize in:

Inverted Milling
Milling

Line Boring
Flange Facing

Bore Welding

At PIC, we pride ourselves on all aspects
of our machining capabilities.

SAFETY • PROFESSIONALISM • EXPERIENCE

ELECTRICAL SERVICES

REPAIRS

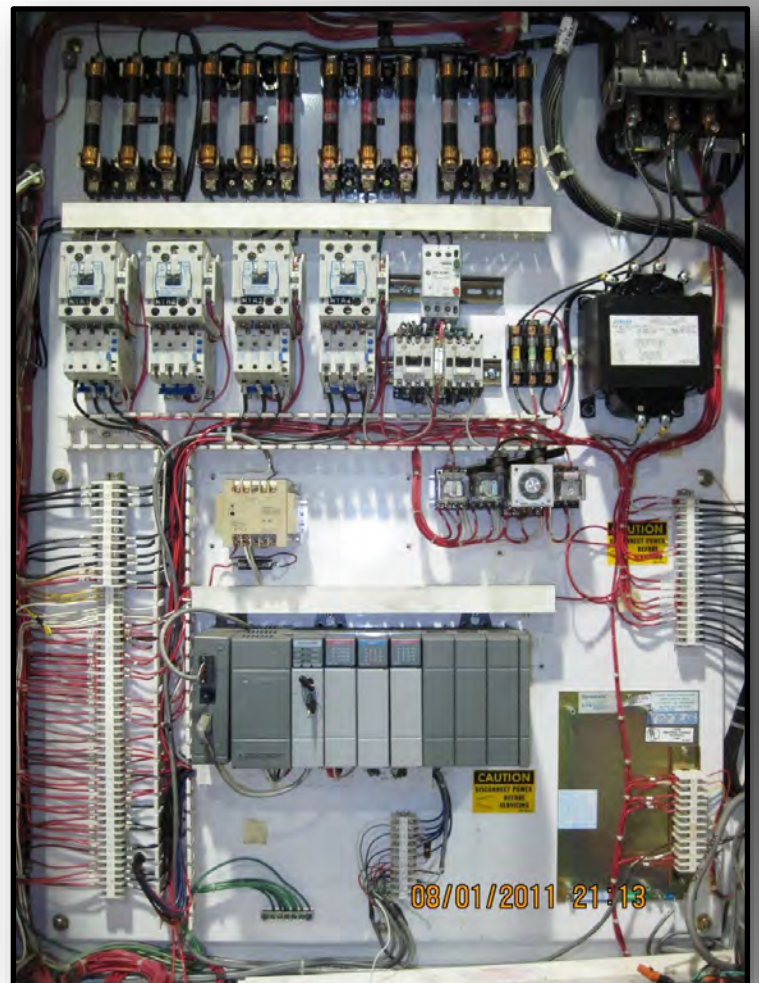

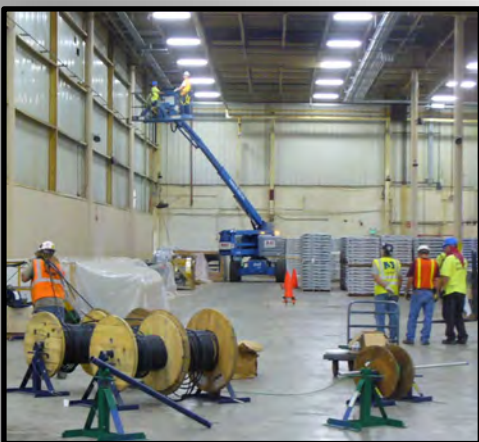

Troubleshooting
Field Repairs
Planned or Emergency Basis

REMODEL/RELOCATE

Expert Consultations
Matchmarking/Documentation

NEW INSTALLATIONS

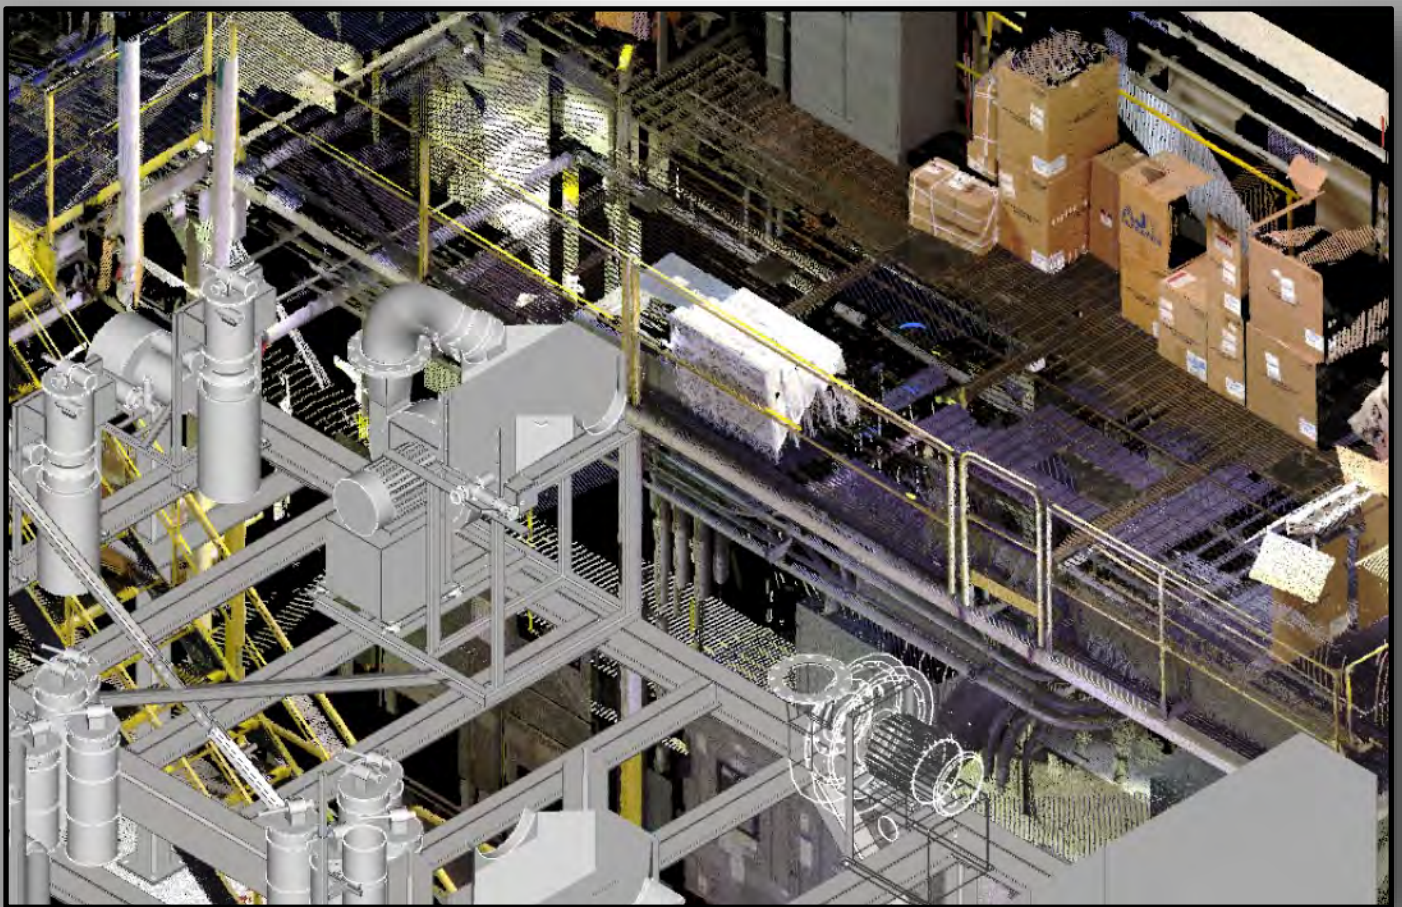

Power Requirements
Equipment Sizing
Wire Way Systems

3-D SCANNING

PIC sets itself apart from the competition by utilizing FARO 3-D scanning technology. This valuable tool saves time and headaches by aiding in design and visualization of projects, ensuring pre-fabricated parts and equipment fit before arriving on the jobsite, thereby avoiding costly field errors before they occur.

This technology is also useful for situations where taking field measurements is impossible due to inaccessibility or dangers in hazardous areas.

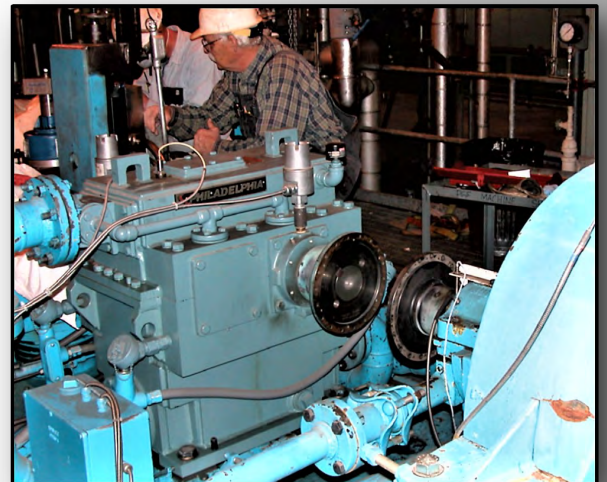

SAFETY • PROFESSIONALISM • EXPERIENCE

ALIGNMENT SERVICES

PIC provides precision alignment services in conjunction with our other mechanical services, as well as a stand-alone service to optimize equipment operations.

Customers trust our precision equipment alignment and we have a long history of successful projects. Our alignment team has been working with our superintendents for years to provide seamless precision installations on equipment.

TEAMWORK

*PIC encourages a culture
of teamwork.*

SAFETY • PROFESSIONALISM • EXPERIENCE

YOUR NEXT PROJECT IS AS IMPORTANT
TO US AS IT IS TO YOU.

NO PROJECT, JOB, OR CHALLENGE IS TOO BIG FOR THE PIC TEAM!
